

The Clearing Corporation of India Ltd.

RMD/SS/BT/21/05

Dated : 11th Aug'21

Securities Segment

Back Testing Results of the effectiveness of using yield spreads/illiquidity related adjustments during the month of Jul'21.

In terms of Para 3 of Notification No.RMD/SS/09/13 dated 28th August'09, yield spreads and spreads in terms of Rupees & paise are being used to factor in impact of illiquidity for the purpose of valuation

2. Improvement in terms of bringing model prices of securities closer to weighted average of traded prices could be achieved during Jul'21 as under:

S.No.	Category	Improvement in no. of cases*
1	Government of India Securities	99.60%
2	Special Securities issued by Government of India	100.00%
3	State Government Securities	98.17%

**Difference of less than Rs. 0.50 ignored.*

3. There were 03 cases GOI Securities and 09 cases of SDLs where due to yield spread and illiquidity related adjustments, the model price moved away from weighted average of traded price by significant margin (Rs.1 or
